Includes newly allocated funds to the production, preservation or protection of affordable housing					

2020 2023 60% of strategy period remaining 2030

A STRATEGIC RESPONSE

The complex, interlocking factors that cause housing unaffordability will not be solved by any one sector of the housing market. They require a strategic, multi-faceted response.

PRODUCE	PRESERVE	PROTECT	SYSTEMS CHANGE
In order to meet housing needs, Cincinnati and Hamilton County must scale up the production of affordable homes.	Investments in maintenance and repairs are urgently needed to preserve our existing supply of affordable housing.	As the region grows, we need to protect the housing stability of those who are most vulnerable to rising housing costs.	Achieving equitable housing access and affordability throughout Cincinnati and Hamilton County will require changing the existing systems that have left too many residents behind.
